

# UGBN Site Tour Ace Energy/ECS

---

*June 17th at 4:30 PM  
4455 Genesee Street, Building 6  
(Across from airport in the Calspan Complex)*

Learn about, **Demand Response**, **Energy-Efficient Lighting Solutions** and **Real-time Energy Monitoring!**  
Meet other like-minded businesses and share their successes and challenges.

**Topics will include:**

- What Demand Response is and how it benefits the client and community
- Current trends in Energy-Efficient Lighting solutions including automation and daylight harvesting
- Tour of OpNet, an energy metering center that monitors client's real-time energy use
- How all these products save clients money

**PRE-REGISTRATION REQUIRED:** [HTTP://WWW.NYCHARITIES.ORG/EVENT/C\\_EVENT.ASP?CHARITYCODE=2490](http://www.nycharities.org/event/C_EVENT.ASP?CHARITYCODE=2490)

**FREE EVENT, BUT...SPACE IS LIMITED!**

**QUESTIONS?** Contact [Katy Duggan-Haas, 716-629-3675 or kdugganhaas@recycle.com](mailto:kdugganhaas@recycle.com)

**Ace Energy** is a full-service energy savings company specializing in customizable energy-efficient lighting solutions and controls. A NYSERDA award winning industry leader in energy-efficient lighting projects, Ace Energy offers complete analysis, design, and turnkey solutions for businesses seeking to reduce energy cost and consumption.

**Energy Curtailment Specialists (ECS)**, headquartered in Buffalo, is the largest privately held Demand Response provider in North America.

ECS' PowerPay! Demand Response program pays participants for strategically lowering their demand for electricity in order to help balance supply on the grid, thereby preventing dangerous shortages or blackouts. Participants are asked to decrease their usage during critical periods of demand, typically for two hours, twice a year.
